

# FAEBER LIGHTING SYSTEM

## ENEC+ Certification:

An official recognition for what we have always believed in.

## A CONFIRMATION THAT STRENGTHENS THE ROOTS OF OUR COMMITMENT.

We are pleased to announce that some of our products have obtained the **ENEC+** certification, a European recognition that attests the **high quality, efficiency and reliability** of lighting products.

This result represents an official confirmation of the principles that have always guided our work.

Data **transparency, quality** and **reliability** of our products have always been at the heart of our work. The ENEC+ certification confirms at European level, a concrete and constant commitment of the company to offer customers high and real standards.

The certification process is set to continue until it involves the entire range of our products.

### IN THIS ISSUE:

*ENEC+ Presentation.*

QUALITY CANNOT BE  
IMPROVISED:  
IT IS BUILT TOGETHER,  
DAY BY DAY.

The ENEC (European Norms Electrical Certification) certification guarantees that the product is safe, ENEC+ goes further by also **certifying the declared photometric and electrical performances.**

In particular:

- Luminous flux.
- Energy efficiency.
- Maintaining the luminous flux.
- Real consumption.

ENEC+ is not just a brand, but the confirmation that our products respect – and exceed – the most stringent technical standards, guaranteeing constant performance and safety over time.

This achievement is the result of **great teamwork.**

Technicians, designers, quality department, production and all the staff involved have worked with **dedication and precision** to make this important result possible.

For us, quality is not just a goal, but a responsibility towards our customers and partners.

Obtaining ENEC+ is the result of a **collective effort** and confirms the company's desire to offer increasingly high-performance, safe and sustainable solutions.

*Thank you for your continued support and trust in us.*
